

Code Officer's Report
Village of St. Johnsville

3/16/18

Since last month's meeting, I have issued
a couple of building permits in the village.
Have sent out citations with order of remedies
to some property owners on cleaning of their
properties. One owner already showing progress
with working on the other owner (not yet)
Also the lead problem ~~down~~ ^{down} on E. Liberty St
is being finally taken care of with a
contractor who is certified lead remover.
Class coming up in April (at County) is
on lead training (all day) - already registered
Everything from the printers that was
ordered is done, (building permits, certificates of
completions, stop work orders) stuff you needed
So far - So good

Any questions just call and leave message
