- We have begun Spring cleanup throughout village. We have been out regularly picking up yard debris and have also been using leaf picker as well. We have been at the park as well as started up to the cemetery. Matt LaCoppola has been retained from last year to work part time at the cemetery. He started this spring on 4/9. We will continue with Spring cleanup on a regular basis in between other necessary projects that come about.

- We will be turning water on at Marina campsites and Soldiers & Sailors park as soon as overnight temperatures remain above freezing. Looking at extended forecast, I believe it will be safe to do so the week of 4/15/19.

- Continue with regular scheduled maintenance of village vehicles and equipment

- We will continue with the brush clearing project along the railroad bridge on both sides of the tracks when we are able to do so.

- All snow equipment will be brought in throughout the spring and gone through. Any repairs needed will be done so in the fall everything will be ready to go for winter.

**** Spring cleanup duties (i.e. yard debris, leaf pickup, brush pickup) will consume much of the rest of April and early May. This will include getting the cemetery, park and Marina ready for Summer activities. ****
